Correction to: Impact of Timing on the Functional Recovery Achieved With Platelet Supplementation After Treatment With Ticagrelor

In the last line of the Conclusions in the abstract, “Although statistically significant improvements are evident 6 hours after (last) dosing, ≤24 hours maybe needed for clinically meaningful restoration in platelet function.” should be “Although statistically significant improvements are evident 6 hours after (last) dosing, ≥24 hours maybe needed for clinically meaningful restoration in platelet function.”

This correction has been made to the article, which is available at http://circinterventions.ahajournals.org/content/10/8/e005120.
