Correction

The version of the article, “Trial Occlusion to Assess the Risk of Persistent Pulmonary Arterial Hypertension After Closure of a Large Patent Ductus Arteriosus in Adolescents and Adults With Elevated Pulmonary Artery Pressure” by Zhang et al that published online ahead-of-print on August 5, 2014, and appears in the August issue (Circ Cardiovasc Interv. 2014;7:473–481) contained an error in the correspondence footnote. Correspondence should be directed to Xian-yang Zhu, MD:

Correspondence to Xian-yang Zhu, MD, Department of Congenital Heart Disease, General Hospital of Shenyang Military Area Command, Shenyang 110840, People’s Republic of China. E-mail xyangz2011@163.com

This will be corrected in the online version of the article.
